AUGUST 20 25

## 4 Safe Solutions to Participate in Stadium Security for the FIFA World Cup 2026

The team at 4 Safe Solutions, a company of the RCU Sistemas S.A. de C.V. group based in Miami, Florida, has been invited by the U.S. Department of Commerce to join a select security committee that will work on the planning and oversight of the stadiums hosting the FIFA World Cup 2026 in Canada, the United States, and Mexico.

Through this participation, 4 Safe Solutions will contribute its cutting-edge technology and the expertise of its team of engineers and geophysicists to the comprehensive digitalization of soccer stadiums using 3D models and point clouds.

With a proven track record of excellence and collaboration on large-scale projects, 4 Safe Solutions strengthens its position as a strategic partner for governments and organizations seeking high-level, comprehensive security and technology solutions.

These models will be used by local authorities and security agencies to:

- Strategically locate operational points and areas of interest for authorities.
- Review crowd flows and identify potential bottlenecks.
- Design optimized evacuation routes, with special attention to alternate emergency exits.

This effort reaffirms 4 Safe Solutions' commitment to technological innovation and international public safety, helping ensure that the world's most important sporting event takes place in a safe and controlled environment.
